

Microcomputer Design

Dr. Joonwan Kim

January 24, 2024

Design Report #2

I. Time: 13 Hours

II. Accomplishments

- A. Researched more hardware options
- B. Researched PCB manufacturing places to get specs on fabrication
- C. Made revision 0.2

III. Planned Work

- A. Compare parts with peers
- B. Create footprints for parts
- C. Review schematic with Lab Assistant

IV. Project Completion

- A. Hardware: 35%; Rev. 0.2 complete
- B. Software: 0%

V. Help from Lab Tech

- A. 1/18/2024 - Reviewed the CTS and RTS pin functions, looked over clock and reset circuit.
